FROM THE ACTING PRINCIPAL

Dear members of the Avila community,

It was a delight to welcome back staff and students looking so refreshed and re-energized following the three-week mid-year holidays. I do hope that you and your family were able to savour the change of pace and the opportunity to enjoy some respite from the busyness of school routines.

The extended break provided an ideal opportunity for the new building program to commence in earnest. As there are two different areas of the school affected by the building program, I ask all to note the restricted access to some parts of the College over the next few months. In particular, whilst construction of the new gathering space between Bunjil and the Food Tech area is happening, the only access to Bunjil will be via the gym. This means that all visitors, including those attending the College Assembly on Friday morning and the Subject Selection Information sessions next week, will need to allow time to walk around past the Science labs and Art area, then through the newly paved St Teresa’s Garden (between the staffroom and the old Junior School) to access the gym, Bunjil or Music School.

On Monday, we were privileged to co-host with Mazenod College, an esteemed international scripture scholar, Professor Amy-Jill Levine. All of Mazenod College’s staff and a few from other schools such as Our Lady of Sion and Padua, came to hear Professor Levine speak about the Historical Jesus. The occasion was also a great opportunity for staff from Avila and Mazenod to mix freely and exchange some innovative ideas for working effectively with our young people.

Community News:

Congratulations to the students who participated in the WINT netball competition during the holidays. Curriculum Leader and coach Donna Bell is rightfully proud of the excellent results with both the junior and senior teams making it into the semi-finals only to be defeated by Rowville who went on to win the competition in both sections. This meant that Avila came third. It was great also to see so many parents and other staff supporting students throughout this competition in the first week of the holidays.

Congratulations also to the nine Avila students who made it through to the finals of the Dante Alighieri Italian poetry competition held on Friday 18 July. Three year 9 students, Olivia Condina-Hibon, Taylah Hutchinson and De’Arne Cvetkovic progressed further on the day, being called back and asked to perform yet again. We are anxiously awaiting final results and commend these students on their achievement in making it through to the final of such a prestigious competition. Sincere thanks to our Italian teachers and, in particular, to Mrs Domenica Tarquinio who accompanied the students at Melbourne University during the holidays.

Congratulations to all students and staff involved with the fabulous musical production of West Side Story. Many hours of rehearsal, including weekends and holidays, have led to a brilliant, very moving production of this timeless love story. The singing, dancing, acting, sets and production are all top class. I urge anyone who hasn’t yet secured tickets to get in fast for the final few remaining seats. You’ll regret it if you don’t.

We welcome back staff who were on leave last term: Mrs Clare Manning, Mrs Lisa Moloney and Mrs Trish Fleming.

Reminders:

Final call for bookings for the last couple of shows of West Side Story and for tickets to the PFA BABBA event to be held on Friday 8 August. See details later in this newsletter.

With God’s blessing to all members of the Avila community,

Madeleine Franken
Acting Principal
ADMINISTRATION NEWS

On Friday 22 August all students involved in College Music ensembles, Sporting teams, Public Speaking and Debating Groups, Reconciliation Group, Junior Drama Club, Book Club, Peer Helpers, and Stage Crew will be required for specialist photos.

Students will need to ensure they have their full winter uniform for photos including blazers and stockings. Sports Team photos will require students to be in their full sports uniform. These photos will be made available for purchase later in the term.

Traffic Management

Because safety is a key issue for all our Avila students, we ask for support and cooperation from parents when either dropping off your daughters or picking them up at the end of the day. In order to assist with this process, we ask that parents refer to the diagram at right and follow a clockwise direction when dropping off or picking up students. Please look closely at the diagram at right that identifies:

- Parking areas for parents
- Drop off areas
- Bus parking only
- Staff parking only
- Flow of traffic

For the safety of all students, staff and parents, we ask that no cars come past Portsmouth Street to the dead-end part of Charles Street. We also ask that you are mindful of neighbours’ access to their driveways.

We urge parents to please follow the recommended route when dropping off or picking up their daughters.

EDUCATION MAINTENANCE ALLOWANCE (EMA)

The Education Maintenance Allowance (EMA) is provided by the Victorian Government to lower-income families to help with education-related costs.

If you have a child under 16, and you hold a valid Health Care Card, Pension Card, or are a temporary foster parent, you may be eligible to receive the EMA. The allowance is paid in two instalments, one in March and one in August. The payment is intended to assist with education-related costs such as; uniforms, excursions, textbooks, and stationery. You can elect to have your EMA paid in one of the following ways:

- Paid by direct deposit (Electronic Funds Transfer) into your own nominated bank account; or
- Paid to the school to be held as credit which you can use towards education expenses; or
- Paid by cheque which will be posted to the school for collection.

In 2014, the annual EMA amount per student is:

- $200 for prep students (instalment one $140, instalment two $60).
- $150 for students in years 1 – 6 (instalment one $105, instalment two $45).
- $300 for year 7 students (instalment one $210, instalment two $90).
- $250 for students in year 8 – until age 16* (instalment one $175, instalment two $75).

* A pro-rata amount is payable for students turning 16 in 2014.

How to Apply: You can obtain a form from the office or if you would like an EMA application form sent to you electronically, please email Nicola Taylor on ntaylor@avilacollege.vic.edu.au.

Closing Date: You need to obtain an EMA application form* from the school office and return by 1 August 2014.

* Parents who received the first instalment EMA payment through this school don’t need to lodge another EMA application form to receive the second instalment payment.

Subject Selection

Term 3 is an exciting time with real opportunities for consolidating learning. The chance to reassess goals, explore future options and select courses for next year generates animated discussion amongst students and staff.

Over the next few weeks, students from Years 8 to 11 will be involved in the important process of selecting their subjects for 2015. Students are well supported in this process at Avila College. There are formal information sessions for parents and students as well as rich, additional information in the 2015 Curriculum Guide online. Parents and students can use the text, images and film clips as a guide when selecting suitable electives for study. The 2015 Curriculum Guide is now available from the College website, Simon’s homepage or you can click on the link below: http://bit.ly/AvilaCurriculumGuide

The formal information sessions include two evening events next week for parents and their daughters. As builders have commenced work, we ask that all visitors to the College are mindful of restricted access to some key areas. Currently, the only access to Bunjil is through the gym. Parents and students will need to walk around past the science labs and art rooms and through either the Old Junior School or St Teresa’s Garden to enter the gym.

The first of the formal information sessions will be at 7:30pm on Monday night 28 July for all current Year 8 students and their parents.

On Tuesday 29 July, all current Years 9 and 10 students and their parents should attend to be well informed about subject selection. Please note that the evening is divided into two segments with a formal information session for each year level and an opportunity for parents and students to talk with specialist staff, Curriculum Leaders and Careers teachers in the Old Junior School. It is important to note the time when the formal information session commences for each year level.

Current Year 10 students and parents should be in Bunjil for a 7:00pm start for the formal information. Following the formal presentation, there will be an opportunity to meet with specialist teachers for further information and advice in the Old Junior School (Careers Hub, Multi-purpose space and other classrooms).

Current Year 9 students may speak with staff in the Old Junior School between 7:00 and 8:00pm but must be seated in Bunjil by 8:15 to hear the formal presentation about subject selection.

At 8:00pm the two year levels swap over with the Year 9s moving into Bunjil for their formal presentation and the Year 10s exploring the details of VCE and VET subjects with specialist teachers in the Old Junior School area. All sessions conclude at 9:15pm.

Please mark these times and dates in your diary now (see table on next page).

Please allow extra time for parking and for walking the extra distance around the school to enter Bunjil via the gym. During construction works, there is no access to the foyer or stairs of Bunjil.

During special year level assemblies on Tuesday 29 July Curriculum Leaders will outline to students the elective units available and some specific factors that need to be considered when selecting them. Some specialist teachers will also conduct lunchtime question and answer sessions that will be advertised in the Student Daily Bulletin.

All the general information pertaining to the subject selection process will be conveyed only in the evening sessions. The process and criteria for VCE acceleration will also be explained on these evenings. It is vital that both parents and students are informed accurately about this to avoid future disappointment. In addition, students may like to bring their MacBooks or their Semester One reports if they wish to discuss the suitability of particular VCE units with Curriculum Leaders or specialist teachers.

Year 12 students should also be reflecting seriously on their Unit 3 coursework feedback and planning for life beyond Avila. Over the next few weeks they are encouraged to visit university and TAFE Open Days because they will be required to enter their preferences for tertiary courses via the VTAC website very soon. Careers teachers, Ms Geraldine McKenna and Mrs Clare Meo and Year 12 Coordinator, Mrs Louise Swift will assist them in this process. The VTAC Information evening on 14 August will also provide a timely forum for parents also to learn the latest about the VTAC selection process for 2015.

Semester One Reports

All parents of students in Years 7 to 12 should have accessed their daughters' Semester One reports via the Parent Access Module (PAM) on Simon. All students can also access their own past reports from their personal profile page on Simon.

With the benefit of results from Semester One, and with advice from their teachers, students in Years 7 to 10 will be encouraged to set challenging yet achievable goals for Semester Two.

Opportunities for parents to discuss their daughters’ progress will occur with the Oral Report Interviews later this term. Please note the dates listed below. Of course, any parents with more immediate concerns about an aspect of their daughter’s progress may contact the College to arrange to speak with either the Year Level Coordinator or the specific subject teacher.

Further information, including access to PTO for Term 3 Oral Report Interview bookings, will be available next week.

Adventures In 3D

In the second term of the year, the Year 10 girls in Big Ideas in Computer Technology experimented with 3D graphics. Most learnt to model 3D objects in a computer program called Blender, while others got to work setting up the school’s new 3D printer and 3D scanner.

Modelling 3D objects involves creating geometric shapes and then adding surfaces to them. Light sources can be created and shadows are cast by the shapes.

Later in the term, each student chose a project to complete. Some wanted to go on with 3D modelling and / or animation.

Having animated a lava lamp, a student reflected on her newly acquired scientific understanding, writing that she had to learn “how mass, buoyancy, viscosity and repulsion all affect the fluid of the lava lamp” (Adele Easton).

Here is a sample of these final projects. Note that these are not photographs:

L-R: Model of a vase by Amanda Disilvestro, Cup created by Miranda Swann and 3D printed “little person” by Amanda Disilvestro.

L-R: Fuzzy Bear by Melissa Baptista & Clock animation by Erin Flatters. Click here to see the animation in action.

VCE Maths

VCE students are encouraged to maximize their opportunities for learning within class time. Of course, if a student has a particular concern, she may make an appointment to meet with her teacher at lunchtime or in a study lesson. If an appointment is made, a student should have a very clear list of the work she wishes to review.

Mathsonline.com.au

All Years 7 to 10 students have been given log in details for this Maths website. Maths Online guides your daughter through maths topics, lesson by lesson, allowing her to pause, rewind and repeat all or part of any lesson. Your daughter has access to skills from other year levels, which provides her with the opportunity to revise skills previously learnt or to attempt more difficult skills. Each lesson includes a test so that your daughter can see how well she has understood the work. Your daughter’s teacher may set specific lessons for her to do or your daughter can attempt lessons at any time.

Waverly International Netball Tournament

In the first week of the school holidays, Avila entered a junior and a senior team in the Waverley International Netball Tournament. All players represented Avila proudly and successfully exhibited the skills they had fine-tuned over the course of several early morning training sessions. All players relished the opportunity to play against such quality opponents and enjoyed the experience of competing against international teams from Sri Lanka and Kuala Lumpur. Both teams played consistently well and fought valiantly across all four days of competition, cheered on by family, friends and college staff members who came to watch. Both teams finished the tournament in an incredible third place in their respective sections.

YEAR 9 CAREERS DAY
The Year 9 Careers Day held on Friday June 20 provided students with an opportunity to consider their strengths as indicated through the completion of the Job Test vocational testing tool. HOW TO GET THE MOST OUT OF OPEN DAY VISITS

Don’t wander aimlessly, try the following:

- Allow sufficient time for your visit; two hours or so would be advisable
- Speak to staff about courses which interest you - note your questions beforehand
- Get a student perspective - speak to students studying courses which interest you
- Collect information/brochures
- Ask about industry based-learning (IBL) opportunities; these can assist with gaining employment
- Ask about international study opportunities – a popular option
- Consider transport issues; is the campus accessible from where you live?
- Check the environment where you will study; will you be happy there for three/four years?
- Consider the facilities/clubs offered at your preferred institution
- Consider visiting a rural campus, especially if you think you won’t obtain a high enough ATAR for a metropolitan campus. ATAR’s are often lower and they often offer more personal assistance, accommodation, and a lifestyle that will suit some students.

NOTE: If you plan to apply for a course involving an interview/folio presentation/audition as part of the selection process, attendance is A MUST! You might be asked what you learned at Open Day.
